

## Filter elements in V-shaped wire for mineral processing

### Typical applications

- Coal dewatering
- Coal sludge dewatering
- Phosphate processing
- Iron ore processing

### Industry type

- Mining industry
- Mineral recovery industry
- Metallurgical industry

### Used products

- Welded screens
- Curved screens
- Centrifuge screens
- Slot tubes
- Cylinders

### Common product specifications

- Slot opening : 0.05 mm to 4 mm
- Surface profile : 12S to 50S
- Surface profile : Q25 to 30 x 3
- alloys : mainly stainless steel AISI 304, other alloys are available

### Quality Assurance

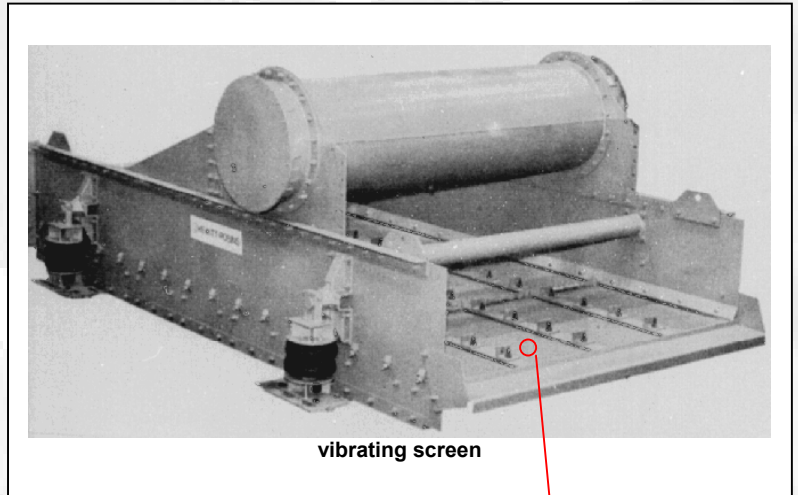

- ISO 9001 Certified
- Trislot focuses on Total Quality Management
- 50 years of experience

### Benefits

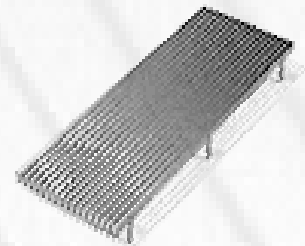

- High open area = quicker filtration
- Accurate filter rating
- Longer service life
- Low maintenance costs
- applicable in high temperature

### References

- References can be submitted on request and after discussion with our customers.
