

Filter elements in V-shaped wire for the Starch Industry

Typical applications

- Fibre washing
- Dewatering
- Corn starch processing

Industry type

- Starch industry

Used products

- 120° DSM type sieve bends and welded screens in curved construction

Common Product Specification

- Looped screens : Profile 10A or 8A
- Welded screens : surface profile 10S, 11S or 12S support profile Q25 at a distance of 17 or 22 mm
- Polished with a slot width of 50 to 75 micron

Quality Assurance

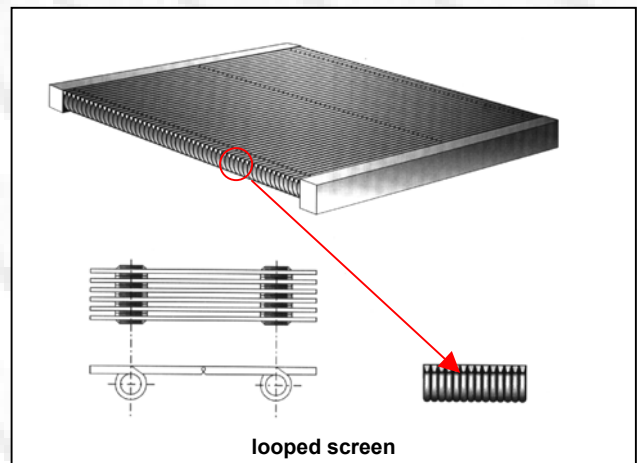

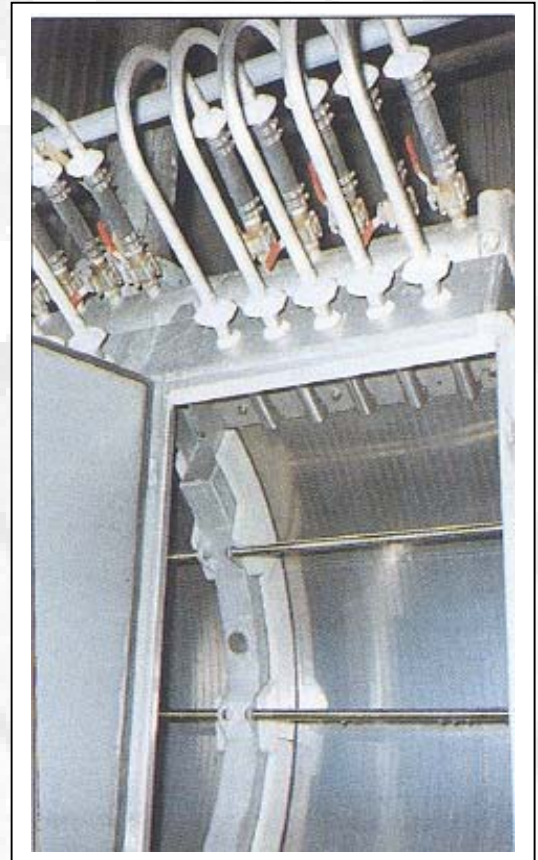

- ISO 9001 Certified
- Trislot focuses on Total Quality Management
- 50 years of experience

Benefits

- Open area
- Free from clogging
- Excellent dewatering
- Rigidity
- Longer service life
- For the looped screens: can be used in both directions
- Low maintenance costs

References

- Trislot has delivered wedge wire screens to starch production plants and cooperates with engineering companies active on that market. References can be submitted on request and after discussion with our customers.
