

Trislot has built a vast experience in developing and producing laterals in wedge wire

Wedge Wire Distributor & Header/Lateral system

Product advantages:

- Superb backwash ability and non-clogging
- Custom-made and fit for purpose
- Excellent flow distribution and media retention
- Strong construction

Typical applications

Treatment/filtration of produced seawater through multi-media vessel. (Sulfate Removal)
Treatment of liquid or gas in a vessel by resins, ion exchange, active carbon, molecular sieve,.....

Common Product Specification

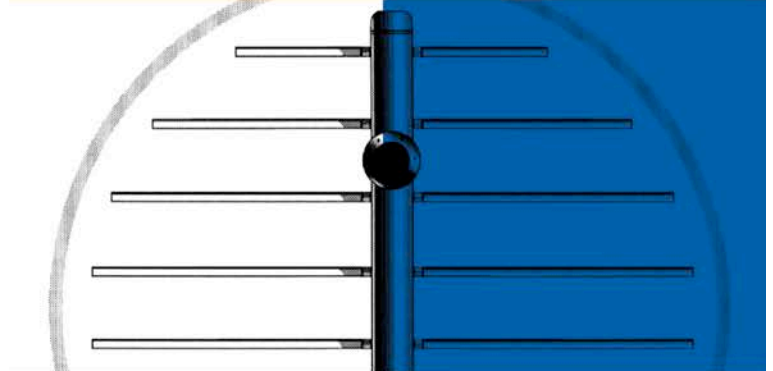

- Super Duplex UNS32550 / UNS32750-60 (NORSOK M650 certified material) or Stainless Steel 316L
- slot opening 50 μ - 500 μ
- surface profile: 12S - 18S
- diameter slot tubes: 25 mm or larger

Quality Assurance

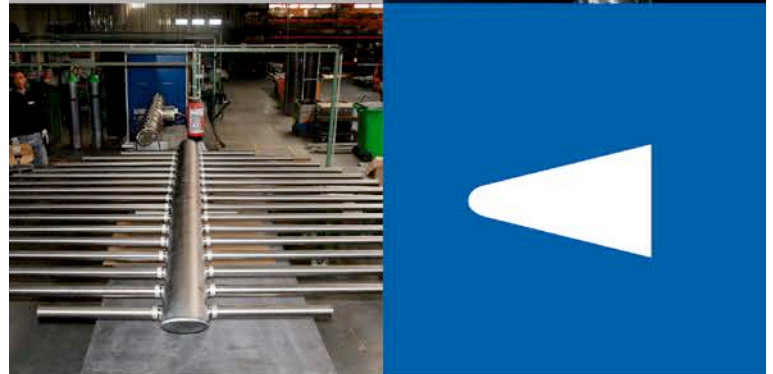

- ISO 9001 Certified
- NORSOK M630 production process
- Trislot focuses on Total Quality Management
- 50 years of experience

Benefits

- Rigidity
- Longer service life
- Low maintenance cost
- High heat and corrosion resistance by using special alloys
- Excellent flow distribution and media retention

*Collector or distributor
system with wedge
wire laterals*
